Big Blue - Drive OVP

Designing, building, or converting a recreational vehicle is often a meticulous process, particularly when sourcing high-quality components engineered for mobile living. Since 1986, Scanstrut have specialized in developing innovative products that endure the most demanding outdoor conditions.

Whether you are a first-time van converter or a large-scale OEM seeking reliable solutions for mounting, sealing, or charging electronics in your RV, our extensive range of products offers the perfect enhancements for your project.

Before any product is released, it must pass through our rigorous testing program which involves assessments in electrical, mechanical, U.V., corrosion, thermal, and waterproof categories.

“ Scanstrut cable seals sit really nicely in the 1st depression on the Mercedes Sprinter roof, almost as if it was made to fit! ”

James, Moss Adventure - 2024

CABLE SEALS

Unaka Gear Co

Scanstrut cable seals are engineered for all RV environments, offering a **100% watertight installation** without the need for messy sealants. Designed to eliminate time-consuming, sub-standard cable routing, this IP68 waterproof range ensures reliable performance for all your rooftop electronics, including solar panels and light bars. Available in grey or black high-impact UV-stable plastic, anodized aluminum or 316 stainless steel. These easy-fit cable seals reduce installation time and feature captive fastenings for straightforward assembly and reliable repeat installations.

Horizontal Cable Seals

Horizontal cable seals eliminate time-consuming, sub-standard routing of cables and messy sealant to achieve a 100% watertight installation for your cables every time. Designed to fit a large range of RV cables, available in a single or double seal option.

Available in:

100% watertight

Easy fit cable routing

No messy sealant

Perfect for solar panels, light bars & other rooftop electronics

Ultra strong & impact resistant

UV stable & hard wearing

NEW

Low Profile Cable Seals

This low-profile design reduces the overall seal height by over 70% when compared to the standard range by concealing the seal technology below the mounting surface. This results in a clean and more refined appearance and enables installation in the tightest of spaces.

Available in:

100% watertight

Easy fit cable routing

No messy sealant

Perfect for solar panels, light bars & other rooftop electronics

Ultra strong & impact resistant

UV stable & hard-wearing

Air On Board

Built in air for your RV or Van

ATMOS, by Scanstrut, upgrades your family's RV and camper van experience. This beautifully designed, built-in air station maximizes quality time on your adventures.

At the push of a button, ATMOS is ready to inflate your paddleboards, air mattresses, awnings, and more. Simply set the target pressure and let ATMOS do all the hard work.

Utilizing Scanstrut outdoor technology DNA, this waterproof on-board air station is engineered to thrive in rugged outdoor environments.
