

# LED Aluminum Profiles with IP44

These profiles are characterized by an increased level of IP protection. In practice, this means that profiles certified with an IP44 rating are ideal for use in areas exposed to moisture or contact with water. The IP44 protection guarantees that the products have enhanced resistance to splashing water, in contrast to profiles rated at IP20.

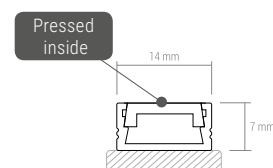

Profiles meet the IP44 requirements when both the cover and end caps are attached.

## Surface-Mounted LINE Profile

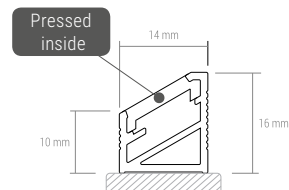

Length	Colour	Transparent diffuser	Opal diffuser	End cap
1 m	Aluminum	PROFIL-LINE-TR-1M-W	PROFIL-LINE-OP-1M-W	OP2-ZASL-13x14-SZ-02
2 m	Aluminum	PROFIL-LINE-TR-2M-W	PROFIL-LINE-OP-2M-W	OP2-ZASL-13x14-SZ-02
